

## Cement Plant in Danao Cebu, Philippines

Activity  
Structural Reinforcement / Concrete  
Project

### Description:

The cement silo of Lafarge Republic Inc. was not operational for many years. Freyssinet conducted visual inspection and a subsequent technical study for the strengthening of the silo's overall capacity. Dry-mix process shotcrete was the solution applied mainly to the lower portion of the structure.

**Client:** Lafarge Philippines

---

**Subsidiary:** Freyssinet International Manila, Inc.

---

**Date Started:** 1/2012

**Date Finished:** 3/2012

### Freyssinet's scope:

Supply of Construction facilities – Installation of Scaffolding – Strengthening by Shotcrete.
